ABOUT THE NZCS AWARDS

Welcome to the inaugural NZCS Awards, established by the New Zealand Cinematographers Society (NZCS) as a way to encourage, celebrate, and honour world-class cinematography in New Zealand.

Cinematography is at the heart of the screen industry. It is the cinematographer's job to concentrate the creative energy of the director, actors, crew, and production, transforming it into images that tell the story.

As you will see, tonight those stories are told with exceptional skill, and are amazingly diverse, reaching all over the world.

The NZCS Awards consists of 14 categories plus the special awards below.

ACCREDITATION

An experienced cinematographer and NZCS full member may apply for accreditation, the highest level of achievement within NZCS. It recognises their body of work. An accredited cinematographer may use the letters NZCS after their name.

TURTZ AWARD FOR CONTRIBUTION TOWARDS CINEMATOGRAPHY

Awarded in memory of lan Turtill, a legendary member of the camera department, this award recognises a special contribution to cinematography by someone who is not a professional cinematographer.

AL GUILFORD EMERGING CINEMATOGRAPHER AWARD

A memorial to cinematographer Allen Guilford NZCS, this is awarded for the best entry from an emerging cinematographer.

CINEMATOGRAPHER OF THE YEAR AWARD

This is the best-in-the-show award selected by the judges from all the entries.

JUDGING

The judging process was developed from ACS judging guidelines, and written judging rules were established to be fair and impartial. However, because of the relatively small size of the New Zealand industry, it was inevitable that some judges were also entrants. This was managed by separating the judges into two completely independent groups, with each group and moderators chosen to avoid judging award categories in which they had entries.

To allow for diversity, judges were allowed to award more than one gold, silver, and bronze award in each category, but they were not obliged to make any particular awards.

The judging was done by individual scoring within the judging groups, and the scores aggregated to get the results. The judging groups do not know the other group's results and until tonight, the NZCS Award committee did not have access to the results.

We would like to thank the judges who committed considerable time to the project. We are also indebted to the Department of Post, who in addition to being a silver sponsor of the NZCS Awards, managed the entries, and did a magnificent job providing playout and viewing facilities. Finally, our thanks go to ACS, and in particular our guests Ron Johanson OAM ACS, and David Lewis ACS, for their encouragement and generosity in sharing their experience with us.
